

**NOTE: Change to the New Hampshire 2010 P.L. 94-171 Summary File data as delivered**

A misallocation of a small number of military personnel aboard naval vessels was discovered in our 2010 Census P.L. 94-171 Redistricting Summary Files. The Census Bureau determined that this misallocation was the result of a geocoding error. Such discrepancies can occur when a living quarter, such as a house, apartment or military vessel, is placed in an incorrect location. A thorough review of all ports followed. We discovered a systematic error in the manner in which a few military vessels had been geocoded, including an error involving Portsmouth and Hampton Town, New Hampshire.

We determined that 454 persons located in 2010 tabulation block 33015 0650.07 1013 should have been assigned to tabulation block 33015 0691.00 1001, in Portsmouth, rather than to Hampton Town. The Census Bureau has provided new population counts that enable data users to have redistricting data free of this inadvertent error for the two blocks. We conveyed this updated block information to the affected jurisdictions and to the New Hampshire State Legislature. We also posted this errata notice on our Redistricting Data Program website and to the American FactFinder, the 2010 Census dissemination Web site.

The new total for Portsmouth and Hampton Town will be available on the redistricting data office website at [www.census.gov/rdo/data](http://www.census.gov/rdo/data). Data users on our American FactFinder who are looking for population figures for Portsmouth and Hampton Town will be pointed to the changes located on the redistricting data page.
